

Steps to submit your images for CAG Juried Show:

We don't want technology to rob you of the chance to enter our JURIED SHOW.

PC, Apple Devices, Android Devices. They all seem to have their own system for the task of or resizing images. You may have to do a search for the method of figuring out what the file size is, and how to make changes on your personal device model.

Example of problems encountered when uploading files:

Some phones will allow for 400MB or 4000+px.

Our resources **will not allow** uploading of files this large.

HOW THEY MUST BE UPLOADED:

1. IMAGES MUST BE CROPPED to show only the artwork.
(no frames, not photographed through glass, no surrounding area at all)
2. SIZE AND RESOLUTION:
TOP LIMIT for image file size accepted by the form is: 2MB.
and 1200px (pixels) maximum of the largest dimension.
3. HOW TO RESIZE IMAGES:
 - a) If you do not have a program to resize your images there are on-line sites which do a good job such as Tiny PNG. <https://tinypng.com/>
 - b) An app that is good is "RESIZE".
 - c) If you just can't solve this issue:
CAG member Ken Solilo has offered to help.
email him your submission images prior to filling the form.
He will resize and email them back to you.
You can then upload these newly sized images to the submission form
